EXAMINER'S AMENDMENT

1. An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on May 10, 2004, Frank Presta requested an extension of time for TWO MONTH(S) and authorized the Director to charge Deposit Account No. 14-1140 the required fee of \$420 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE CLAIMS:

In claim 3, line 3, "the boundary portion" has been changed to -- a boundary portion --.

In claim 6, line 3, "the outer side" has been changed to -- the first side --.

Claims 10-17 have been canceled.

2. The following is an examiner's statement of reasons for allowance: the prior art of record does not teach a can lid as claimed. Specifically, as discussed at the interview of March 10, 2004, the most relevant prior art is the patent to Cortez. Cortez teaches the can lid is opened by a downward pressure to fracture the lid at a fracture point. The claims of the instant invention require the notch portion of the lid to be opened by lateral movement of a thimble portion away from the notch. Thus, the fracturing of the two lids is different. The functional limitation of lateral movement of the thimble away from the notch is given patentable weight by the examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. In order to reduce pendency and avoid potential delays, Group 3720 is encouraging FAXing of responses to Office Actions directly into the Group at (703) 872-9306. This practice may be used for

filing papers not requiring a fee. It may also be used for filing papers which require a fee by applicants who authorize charges to a PTO deposit account. Please identify the examiner and art unit at the top of your cover sheet. Papers submitted via FAX into Group 3720 will be promptly forwarded to the examiner.

4. It is called to applicant's attention that if a communication is faxed before the reply time has expired, applicant may submit the reply with a "Certificate of Facsimile" which merely asserts that the reply is being faxed on a given date. So faxed, before the period for reply has expired, the reply may be considered timely. A suggested format for a certificate follows:

I hereby certify that this correspondence for Application Serial No. _____ is being facsimiled to The U.S. Patent and Trademark Office via fax number (703) 872-7306 on the date shown below:

Typed or printed name of person signing this certificate

Signature _____

Date _____

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lee Young, can be reached on (703) 308-2572.

If in receiving this Office Action it is apparent to applicant that certain documents are missing, e.g., copies of references cited, form PTO-1449, form PTO-892, etc., requests for copies of such papers should be directed to Technology Center 3700 Customer Service Office at (703) 306-5648.
